EXAMINER'S AMENDMENT/COMMENT

1. The amendment filed December 20, 2004 has been entered.
2. It is advised that the obviousness-type double patenting rejection over claims 20-22 is withdrawn due to the limitation in amended claim 20, "the deck having at least one connector for detachably securing the deck to the anchoring device *for vertical movement of the deck in the water relative to the anchor*" in lines 10-11.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIM

Claims 1-19 to a non-elected invention have been canceled.

4. The following is an examiner's statement of reasons for allowance: The prior art taken as a whole does not show nor suggest a portable floatation platform comprising a deck having a lighter density than water, when it is deployed in the body of water and supporting the load carried on the deck, anchors being connected to the deck which is engageable with a bottom of

the body of water for holding the deck against horizontal movement, connectors securing the deck to the anchors for vertical movement of the deck in the water with respect to the anchors and a pack for receiving and holding the deck and having a carrying attachment on the pack for moving the platform assembly from one place to another.

The newly found closest prior art, Casull (US 6,173,671), does not include the anchor device is connected to the deck and engageable with the bottom of the body of water for holding the deck against horizontal movement as required by the claim and there is no motivation absent the applicant's own disclosure, to modify the Casull reference in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
